ABOUT

KMD MANAGEMENT GROUP

KMD MANAGEMENT GROUP

KMD Management Group was established in 2004 bringing together a collection of experienced architects, designers, builders and managers from throughout Southeast Asia. The major philosophy at KMD is simply to create the highest quality design and workmanship and make life clear and simple for the client.

We have the capabilities, in house, to facilitate all levels of villa development be it design, construction, or overall project management.

Our mission is to integrate all levels of the development process to simplify and drive the project forward.

Whether your ambition lay in creating a luxury personal villa or a multi-villa complex, we can work with you all steps of the way.

Our skilled team can help you find a location, design an approved architectural plan, and manage the building throughout completion.

PROJECT AND CONSTRUCTION MANAGEMENT

KMD Management Group has one major philosophy: to create the highest quality design and workmanship and make life simple for the client. We have the capabilities, in house, to facilitate all levels of villa development be it design, construction, or overall project management. Our mission is to integrate all levels of the development process to simplify and drive the project forward.

Whether your ambition lay in creating a luxury personal villa or a multi-villa complex, we can work with you all step of the way. Our skilled team can help you find a location, design an approved architectural plan, and manage the building throughout completion.

3

CONCEPT DESIGN AND FINANCIAL BUDGET CONTROL

At KMD we pride ourselves on providing clear and concise data about all projects. We will work with you to create a start to finish outline of the project or design, highlighting the overall budget distribution as well as an informative time-line. Changes and progress on budget spend form part of the regular reporting that we commit as a matter of course.

From initial concept we can help you realize a design that will not only fit your personal vision but also align with all national regulations and standards.

4

QUALITY ASSURANCE AND WORK INSPECTION

Our number one motivation at KMD is to create quality assurance for our clients. We utilize not only proven and reliable in professional building materials with exactly standards in materials quality and equipment commissioning, but also the latest and greatest architecture and design methods to ensure that the highest standards are met.

We also recognize that many clients are not resident in Thailand at the time a project is being built, therefore reporting detailed progress in photographic reports forms part of our standard service.

5

LIGHTING AND CONTROL SYSTEM DESIGN

We work with world class lighting designers to ensure stunning concepts and the most appropriate equipment is used, in addition to this our in house designers and installers are experienced in using the newest lighting technologies, conceptual techniques and control systems to work as architectural tools.

6

IT, AV, AND SECURITY DESIGN

Working with our highly experienced partners in Singapore and Thailand, whether you are looking for a simple outdoor speaker system, a personalized security system, or the latest in audio/visual technology, we can incorporate all your needs into a seamless IT/AV design plan. By considering technology during the initial design stages we eliminate the need for costly add-ins and help achieve a more functional system.

SIAM ESTATES TRISARA
Layan Beach, Phuket

SIAM ESTATES TRISARA

Layan Beach, Phuket

6-Star Luxury Residential Villa, Siam Estates is a large compound style residential villa located on a private bay on the northwest coast line of Phuket. It is set on 4 Rais of sea view land within the Trisara Residential Villa Project. The site, along with the design, and use of exquisite local materials provides the setting for one of the most breathtaking villas on the Island. The contemporary Thai style design incorporates teak wood local carvings on doors, windows, and gable ends. Using the highest quality materials and interior design features, the Villa encompasses all that luxury Thai living should be.

The villa is an app. 4000 Sq. m. 4 bedrooms, 2 living rooms compound with a fitness room and multiple infinity pools. KMD Management responsibilities include full Project management, Architectural & Structural Design (A&S), Mechanical & Electrical Design (M&E), Interior Design, and Construction Management.

BAAN LAYAN, PHUKET
Layan Beach, Phuket

BAAN LAYAN, PHUKET

Layan Beach, Phuket

Located on a sea view plot over Layan Beach, luxury residential villa, Baan Layan was a ten year old contemporary tropical style home in need of upgrades. A new A&S, M&E, and interior renovation plan was designed and implemented in a short six month period. Among many additions, new Teak Wood trim, doors, and balustrade were constructed, as well as a new Teak Wood shingle roof. The swimming pool was overhauled with the newest filtration technology and retiled with mosaic gray marble to fit the new décor of the Villa.

Baan Layan is a 3 bedroom, 1 studio residential villa project which implemented full project design and construction management for A&S, M&E, and interior renovation.

TRISARA VILLA TB-17
Layan Beach, Phuket

TRISARA VILLA TB-17

Layan Beach, Phuket

Luxury Residential Villa TB-17 was built in a contemporary Balinese style three years ago and is located within the Trisara land plot. While preserving the Balinese style, two open air Salas were renovated into enclosed living spaces including full interior fit-outs and A/C systems. These spacious new living areas opened up the floor plan of the original design and allowed the pool to become integrated into the overall feel of the home. In addition, two new outdoor open air Salas were also constructed.

TB-17 Trisara incorporated full project design and construction management for A&S and M&E renovation.

SAMSARA PROJECT

Kammala Beach, Phuket

SAMSARA PROJECT

Kammala Beach, Phuket

Luxury Residential Villa TB-17 was built in a contemporary Balinese style three years ago and is located within the Trisara land plot. While preserving the Balinese style, two open air Salas were renovated into enclosed living spaces including full interior fit-outs and A/C systems. These spacious new living areas opened up the floor plan of the original design and allowed the pool to become integrated into the overall feel of the home. In addition, two new outdoor open air Salas were also constructed.

TB-17 Trisara incorporated full project design and construction management for A&S and M&E renovation.

SAJJA PROJECT

Layan Beach, Phuket

SAJJA PROJECT

Layan Beach, Phuket

Over-looking the Layan Beach, the Sajja, private swimming pool project, provided a challenge in creating a large infinity style pool that fit into the natural landscape of a high cliff edge. The gracefully swooping 600 cu. m. free form pool was recessed into the mountain side creating a platform for a seamless pool to sea feeling. The pool added exceptional design value to the property.

The Sajja swimming pool project incorporated full project design and construction management for A&S and M&E renovation

WHITEBOX RESTAURANT
Kammala Beach, Phuket

WHITEBOX RESTAURANT

Kammala Beach, Phuket

Luxury high-class seaside restaurant at Kamala Beach is one of the finest designs of building with limited land space. KMD Management role of the challenging assignment from the client is to design a spectacular sea view restaurant on the beach side. The utilization of limited land and building space was attentively considered during the design stage. After six months of efforts, the place turned to be one of the best sea view place for dining in Phuket.

THE PARK
Krathu, Phuket

THE PARK

Krathu, Phuket

At one of the well known residential developments at Krathu area, The Park Multi-Villa Complex around golf course was one of the design roles that KMD Management has been involved in Phuket property business.
